To: STIC-Biotech/ChemLib
Subject: Sequence search

Please search the following:

Application: 09/826,519
SEQ ID NOS: 9-10 in all pending and issued nucleic acid databases.

Thanks,
Janet L. Epps-Ford, Ph.D.

Pending Nucleic Acid and Pending Amino Acid database searches generate two sets of results each. The Pending databases have been split into two parts to reduce the amount of time required for their daily updates. This results in more machine time being available for processing searches.

Searches run against the Nucleic Acid Pending database produce two sets of results, with the extensions **.rnpm** and **.rnpn**

Searches run against the Amino Acid Pending database produce two sets of results, with the extensions **.rapm** and **.rapn**

Because they contain data that is confidential, the results of Pending database searches should not be left in the case .
